## QBCon cuts Business Intelligence costs

Even very sizeable businesses can now install a business intelligence tool in under three weeks – without having to make any significant changes to their current database systems. QBCon, the business solution provider who makes this possible, has already accomplished the feat several times in the past two months. Europ Assistance, Nedbank, IHD, and Matrix vehicle tracking have all benefitted from EasyAsk® installations by QBCon. [Read more...](#)

## News

**Europ Assistance:** QBCon completed the user requirements specification for an Incident claim management system as specified by the Call Assist, Medical and Legal Divisions of Europ Assistance South Africa. QBCon was invited by Florent Secula from Europ Assistance, France to discuss the Incident Claim Management System in a three day meeting.

**EasyAsk® 10:** The latest version of Progress Software's business intelligence tool is available from QBCon. EasyAsk® is the only system that processes all your company data and answers your questions without backroom involvement by searching with natural language processing (NLP).
