QBCon Identify Factors when Deciding to Implement an ERP

Horror stories of companies implementing Enterprise Resource Planning (ERP) systems unsuccessfully are found everywhere. These stories are tainting the world of technology and business solution companies. Companies are starting lawsuits against ERP implementers and vendors because these companies spent more money than they anticipated and still do not get what they paid for. [Read more...](#)

What is QBCon Enterprise?

The uniquely tuned QBCon Enterprise succeeds in automating operational functions and provides strategic decision support information to key decision makers.

Success Story

QBCon sign biggest Agricultural Co-op in South Africa

Quality Business Consultants, a software development and application provider, were contracted to supply AFGRI Producer Services, a division of AFGRI Operations limited, with an ERP solution to run the Retail component of their business. [Read more...](#)
