### **Lab-i: Your Laboratory Assistant**

Today's scientists are constantly seeking for ways to keep track of everything, from experimental details and results to data graphs. What scientists really need is a personal assistant, someone who can document everything that was done in the lab – how was what done and when? Visualise yourself walking up to this assistant, which you know is available every minute of the day, and asking for every detail of information on an experiment you did the week before. **Read more...**

---

### **Did you know...?**

Physical tests can be set up at four different levels and each test can be priced accordingly. Pricing of tests helps you to generate accurate invoices to decrease financial losses and discrepancies.

### **Lab-i Breakfast**

QBCon will be having a Breakfast Session for Lab-i (LIMS) on 2 July at Emperors Palace. The session will be presented by a guest speaker from an industry currently utilising the Lab-i system. The speaker's presentation will be available for download from the QBCon website after the session.

Previous speakers included Dr Dries Louw from ERWAT and Dr Laura Lopez from Agricultural Research Council (ARC). Follow the link to view their presentations <http://www.qbcon.com/breakfast-download>

If you would like to attend this session please contact [karing@qbcon.com](mailto:karing@qbcon.com) for reservations
