Midvaal Water Asks QBCon to write URS

Midvaal Water Company has signed up the Lab-i developer and vendor, QBCon, to complete a Business analysis and User Requirement Specification (URS). Lab-i is a Laboratory Information Management System (LIMS), which is developed by the business solution provider QBCon. [Read more...](#)

Opening of AfricaSan 2008

Speech by Mrs LB Hendricks, Minister of Water Affairs and Forestry

The lack of decent sanitation is a challenge that all of us face in Africa. Provision of sanitation is an investment in our people and must be given higher priority. [Read more...](#)

Did you know...?

The Debtor Management function of the QBCon Lab-i system provides effortless credit control and quick invoice generation.
