### Getting Information Systems Departments to love Business Intelligence

Business Intelligence (BI) is often more expensive than it first appears, and the Information Systems (IS) department often has to foot the bill. But it is only when you analyse the process that creates the reports that the reason for the cost burden of BI on IS departments becomes apparent. The main costs are due to the IS resources required to produce the reports that BI requires. [Read more...](#)

#### News

**Nedbank:** QBCon participated in the first EasyAsk implementation by Progress at Nedbank during September 2007 and have now been contracted to do the full 10 day implementation and training at the Gordon Institute for Business Science (GIBS), a division at Nedbank.

**Mediscor:** QBCon is in the first stage of rewriting an ERP system for the Chroniline business unit within Mediscor. Chroniline is a pre-authorisations service to medical schemes and the new development will integrate Chroniline with the other Mediscor business units.
